Arthur “OK” Pitman Report Canada

Hello Nudge, as I said, this took place last summer, **July 28th, 2018.** It was 2:40 AM when I saw the **forth UFO**, but this one was cloaked, and only about 1000 yards away. I quickly decided to go in the house, even forgot my Nikon camera outside the house. I hoped into bed, realized the window was open, quickly closed it, hope back into bed. This took about 18 minutes, it was now 2:57 AM. I had enough time to get comfortable and signed. Then they started to walk into the house by the back door. The same side of the house they flew by. I could hear them walking down the hall over the hardwood floor. The first (ET) one to get to my bedroom doorway didn't actually enter the room. It was so tall that I couldn't see the top of his head. He turned sideways and the second one entered the room and walked to the end of the bed. The third one walked into the room. He was only about 3 feet. He then stopped and turned to the other one and said something in their language. Then he walked right up next to me at the side on my bed and leaned forward and spoke again to the other one (ET). He looked like he was grinning. Then he leaned closer to me about a foot away from my face. I was so terrified that I was having problems even breathing normally. I can't stress enough how terrified I was. I was so scared that I closed my eyes. Then I hear a voice in my head saying “open your eyes” over and over again. I finally answered and said “No, I'm not opening my eyes. There was a slight pause then it was and hour and 20 minutes later. I have no memory of what took place during that time. The house was quiet again. My heart rate was back to normal. I was relaxed. I let out a sigh and fell asleep. I didn't wake up until 10 AM when my boss's wife walked in the house. I was the only one to sleep in the house that night. Everyone else was sleeping in the campers and motor-homes about 400 feet away, by the fire pit and pound. I got up and said I needed to go home and didn't come back for a couple hours.
